

ITE1008 – Open Source Programming
Digital Assignment – I
Winter Semester 2020 – 2021

Topic: Open Source

Open source is a term that originally referred to open source software (OSS). Open-source software is code that is designed to be publicly accessible—anyone can see, modify, and distribute the code as they see fit.

- *What is the history of the "open source" software movement in the 1980s, 1990s, and 2000s?*
- *How has the "open source" software movement made an impact on society as a whole?*
- *How has the "open source" software movement made an impact, personally, on you and your life?*
- *What is the likely future of the "open source" software movement?*
- *List out minimum of ten top open-source projects in different areas.*
- *As part of the assignment, you must contribute to the “Open Source” community of your own choice. Search for the open-source volunteer, contribute for a few days. Once you contribute, share the profile link and your contribution details.*

Submission of Assignment:

- *Must upload in GitHub and VTOP*

Note:

- *No plagiarism.*
- *The assignment must be on your own if you copied from anywhere else. The marks will be awarded zero.*
